Re: A) Payment of \$1855.96 for continuation of benefits through the end of 1995, see check enclosed.

B) Correction of specific dates related to: last date worked and date of onset of disability.

Dear Nancy;

I need your help in correcting the above dates as I made errors in the dates on the original applications and my doctor used my dates and inadvertently compounded the issue of "dates".

I am enclosing copies of each of the letters sent to my doctor which explains what happened on each of the applications, and both insurers have been copied and have received the copies.

I have spoken to Tiffany Curtis of Liberty Mutual on this and she needs confirmation from you on the dates.

I have spoken to John LaBroad of Mass Mutual also on this and needs confirmation from my doctor which I will take care of.

I would appreciate your contacting Ms. Curtis at Liberty Mutual on this and correcting the dates for the record; last date worked was Jan. 12, 1995 and onset of disability was Jan. 13, 1995.

You can verify the actual dates with Dr. Setnik as he and I reviewed this issue and the above dates are correct.

Sincerely,

Anthony P. Scapicchio
